The Benefits of Out-of-Season Stays

Snowdonia can be incredibly beautiful in autumn and winter (weather of course permitting). Shafts of winter sunlight can give the shore and mountains an extraordinary atmosphere (great for artists and photographers alike), and on clear winter nights the stars twinkle in black velvet, away from city light pollution. In addition you can have Snowdonia virtually to yourself, free from traffic and queues.

Many major attractions are open throughout the year: all the Castles; Portmeirion Italianate Village; the golf courses; the pony trekking centres etc . . .

Conditions relating to Special Offer Discounts

1. The tariff changes each year during the first week of January.
2. Discounted reservations can only be accepted if the weeks are still available.
3. To qualify for the discounts shown in the table the second week must be booked at the same time as the first.
4. In the event of a second week being booked after the first week's holiday has already been taken then the discount is applicable to the second week only.
5. Discount for subsequent weeks is only applicable up to 12 calendar months from the start date of the first holiday.
6. Subsequent weeks falling in the following year's tariff are chargeable at that tariff unless paid for at time of booking
